MISSION STATEMENT

Gogebic-Ontonagon is committed to influence the future by advancing teaching and learning through innovative leadership, quality service and effective programs in partnership with local school districts, area wide consortia, and the community.

VISION

We are the Gogebic - Ontonagon Intermediate School District.

We provide quality service to special education and general education students, instructional and technical support to school staff, and cutting-edge educational leadership in Gogebic & Ontonagon Counties.

We work directly with individuals with disabilities who reside in Gogebic & Ontonagon Counties School Districts.

We serve students of all ages, from newborns to adults, meeting their unique learning needs and supporting their families all along the way.

Within the local districts and auxiliary schools, we focus our efforts on building capacity with school staff. Through quality training and instructional support, we increase their knowledge, skills and abilities, so all students receive a rigorous and effective educational experience.

We promote all aspects of the educational process through our development and support of technology.

We provide training in the use of essential technology tools that enhance curricular, instructional and administrative services in our schools and, as a result, opportunities are expanded for all.

We anticipate needs and opportunities, all with the single purpose of identifying, developing and implementing programs and practices that, through education, improve the quality of life in Gogebic & Ontonagon Counties.
